

10 to 50 EMPLOYEES Female

Area 1
Hartford County
April - June 2007

How to find the right rate:

1. Make sure you're using the right rate chart for the number of total enrolled medical lives.
 2. Make sure you're using the right rate chart for the area where your employer is located. Towns are located on the reverse side.
 3. Look for your Family Status. Are you just insuring yourself? A spouse? Children?
 4. Find the plan you've selected.
 5. Now find your Age Group. Beneath that group, you'll find plan rates from each of the health plan companies.
- Remember: We highlight the lowest rates for each Age Group and Family Status.

How to find the right rate:

1. Make sure you're using the right rate chart for the number of total enrolled medical lives.
2. Make sure you're using the right rate chart for the area where your employer is located. Towns are located on the reverse side.
3. Look for your Family Status. Are you just insuring yourself? A spouse? Children?
4. Find the plan you've selected.
5. Now find your Age Group. Beneath that group, you'll find plan rates from each of the health plan companies.
Remember: We highlight the lowest rates for each Age Group and Family Status.
