### AQUAHEALTH TRIPLE FILTERED STILL AND SPARKLING WATER 4.95 PER BOTTLE

We were environmentally conscious when we built Max Fish.

Every measure was taken to reduce waste and energy consumption to minimize the strain that Max Fish places on our environment. Packaging and shipping bottled water consumes energy and contributes to global warming. Empty bottles add to litter and solid waste. We are using a triple filtered water purification system that enables us to bottle both still and sparkling water in reusable bottles right in house.
