We are proud to offer Champagnes in many styles, from light and crisp with lots of minerality, to rich and full-bodied. *Decanting young wines in Riedel decanters gives the wine a chance to bloom and attain a stage of development that normally requires years of aging – liberating the aromas, intensifying the fruitiness of the mid-palate and rounding out the texture. The sensuous curves of Riedel's new lead crystal, mouth blown decanters are not only seductive, but functional.*
